SCENARIO

Employee spreadsheet import, validation and reporting

Entice

How does someone initially become aware of this process?

Enter

What do people experience as they begin the process?

Engage

In the core moments in the process, what happens?

Exit

What do people typically experience as the process finishes?

Extend

What happens after the experience is over?

Steps

What does the person (or group) typically experience?

Entice	Enter	Engage	Exit	Extend
Identify need	Create Employee Test	Create Transform Map	Review history	Reimport revised data
HR staff and administrator; follow the documented employee import workflow.	Tables / Employee Test; follow the documented employee import workflow.	Sample Spreadsheet Import; follow the documented employee import workflow.	Transform History; follow the documented employee import workflow.	Existing Employee Import table; follow the documented employee import workflow.
Open spreadsheet	Add String fields	Map fields	Verify target values	Reimport revised data
Google Sheets / Excel; follow the documented employee import workflow.	Form Layout; follow the documented employee import workflow.	Mapping Assist and Field Maps; follow the documented employee import workflow.	Employee Test list; follow the documented employee import workflow.	Existing Employee Import table; follow the documented employee import workflow.
Prepare five fields	Open Load Data	Run transformation	Enable ID coalesce	Create three reports
Employee ID, Name, Email, Department, Location; follow the documented employee import workflow.	ServiceNow Load Data; follow the documented employee import workflow.	Transform button; follow the documented employee import workflow.	Employee ID field map; follow the documented employee import workflow.	Pie, Bar and List reports; follow the documented employee import workflow.
Check source data	Upload Employee Import			Share dashboard
Source spreadsheet; follow the documented employee import workflow.	Employee Import staging table; follow the documented employee import workflow.			Employee Analytics Dashboards; follow the documented employee import workflow.
Export Excel	Confirm staging rows			
Sample Spreadsheet.xlsx; follow the documented employee import workflow.	Import Set records; follow the documented employee import workflow.			

Interactions

What interactions do they have at each step along the way?

- **People:** Who do they see or talk to?
- **Places:** Where are they?
- **Things:** What digital touchpoints or physical objects would they use?

Entice	Enter	Engage	Exit	Extend
HR staff and administrator	Tables / Employee Test	Sample Spreadsheet Import	Transform History	Existing Employee Import table
Google Sheets / Excel	Form Layout	Mapping Assist and Field Maps	Employee Test list	Existing Employee Import table
Employee ID, Name, Email, Department, Location	ServiceNow Load Data	Transform button	Employee ID field map	Pie, Bar and List reports
Source spreadsheet	Employee Import staging table	Sample Spreadsheet Import	Transform History	Existing Employee Import table
Sample Spreadsheet.xlsx	Import Set records	Transform button	Employee ID field map	Employee Analytics Dashboards
Sample Spreadsheet.xlsx		Transform button	Transform History	

Goals & motivations

At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")

Entice	Enter	Engage	Exit	Extend
Help me avoid repetitive manual entry.	Help me store employee records.	Help me select source and target.	Help me understand import totals.	Help me avoid duplicate records.
Help me organise employee data.	Help me configure the destination.	Help me map values accurately.	Help me match existing employees.	Help me avoid duplicate records.
Help me keep five consistent fields.	Help me begin the import.	Help me create or update records.		Help me give authorised viewers access.
Help me avoid missing IDs.	Help me stage rows safely.			
Help me upload the correct file.	Help me confirm the source rows.			

Positive moments

What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?

Entice	Enter	Engage	Exit	Extend
Checks improve readiness	Dedicated target table	Clear source-target links	Results can be reviewed	Four-row test: 2 inserts, 2 updates
Excel input supported	Clear field structure	Records transformed		Three reports in one dashboard
Excel input supported	Uploaded rows visible			

Negative moments

What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?

Entice	Enter	Engage	Exit	Extend
Missing or incorrect fields	Incorrect target table	Wrong target selected	Success alone needs verification	
Checks are manual recommendations		Incorrect mappings	Wrong values need review	
Wrong file or sheet selected			Wrong matching field can duplicate records	
			Success alone needs verification	
			Wrong values need review	

Areas of opportunity

How might we make each step better? What ideas do we have? What have others suggested?

Entice	Enter	Engage	Exit	Extend
Use a preparation checklist		Document the Transform Map	Compare history with target records	Retain repeat-import evidence
Document all five fields			Check changed names and emails	Retain repeat-import evidence
Check missing IDs before upload			Use Employee ID for matching	
Confirm sheet and header row			Compare history with target records	
Confirm sheet and header row			Compare history with target records
